A Message on Severe Acute Respiratory Syndrome (SARS)

From Department of Defense Public Affairs
 WASHINGTON (NNS) — "The Department of Defense (DoD), through the Military Health System, is actively involved in monitoring the Severe Acute Respiratory Syndrome (SARS) outbreak, along with supporting both international and U.S. health authorities as needed. Here are some important facts about SARS.

- What is this outbreak?

SARS, is a severe form of pneumonia that appears to have originated in China. So far, the outbreaks have spread primarily to close family contacts of the suspect cases and healthcare workers involved in care of the pneumonia cases. It appears that direct, close contact with infected persons is necessary for transmission.

- Where has the outbreak occurred?

In mid-February, the People's Republic of China reported more than 300 cases of atypical pneumonia, with five deaths in Guangdong Province. Since then, the Centers for Disease Control and Prevention (CDC) has received reports of outbreaks in a number of other countries, including Hong Kong, Indonesia, Philippines, Singapore (not confirmed), Thailand and Canada. "There have not been any confirmed cases in the United States at this time. However, there are at least 14 people who meet some of the World Health Organization's (WHO) criteria for a diagnosis. These individuals are in active investigation by state and local health agencies. The CDC will notify any persons found to have SARS.

Because cases have reached North America, with eight cases and two deaths confirmed in Canada, the CDC has issued an alert for physicians and travelers in the United States to be cognizant of flu-like symptoms, consider recent travel and contacts, seek medical attention if ill

and report possible cases.

- Is this a virus or bacteria?

The cause of this outbreak is unconfirmed. WHO and CDC are still in the early stages of their investigation. The pattern of transmission is what would typically be seen from a contagious respiratory illness or a flu-like illness. There is no evidence to suggest that this is a purposeful act of bioterrorism; at this stage, however, investigators are not ruling out any possibility.

- How can I reduce my risks of acquiring the disease?

As always, good hygiene involving frequent hand-washing, covering one's mouth while sneezing or coughing, and avoiding aerosol droplets from others who are experiencing flu-like symptoms all help to prevent disease transmission.

- What organizations are in charge?

The WHO, based in Geneva, Switzerland, has taken a leading international role in investigating and confirming the outbreaks. CDC is the lead U.S. agency, providing significant assistance to the WHO. CDC is also thoroughly investigating the outbreak and taking aggressive steps to reach those who have traveled to the affected areas.

- What is the Department of Defense doing to help?

In DoD, our infectious disease surveillance systems are closely monitoring for disease trends and possible cases. My office will receive daily updates on our health care surveillance of DoD beneficiaries across the globe. In addition, our military laboratories are supporting both CDC and WHO as needed.

The most important action for all beneficiaries is to remain informed and communicate with your health care provider if you are concerned about a medical problem.

50 Years of "Derby" Pride

Any "boy" who participated in Cub Scouts recalls the annual quest to carve out the winning design for the annual Pinewood Derby. It was that time of year when you put everything you knew about aerodynamics, drag coefficients and track savvy... into pleas for Mom and Dad to help you put your car together.

But, with a little advice from your parents, some tips on how not to injure yourself while forming your "Formula One" one-of-a-kind fantasy racer out of a block of wood, some nails and four plastic wheels.

GTMOs scouts produced a bumper crop of streamlined speed demons for the golden anniversary of the Pinewood Derby and Race Master/Scout Master/track announcer, Art Torley gave the word, the starting gate dropped and the cars streaked down the track to the cheers of the scouts and fans alike.

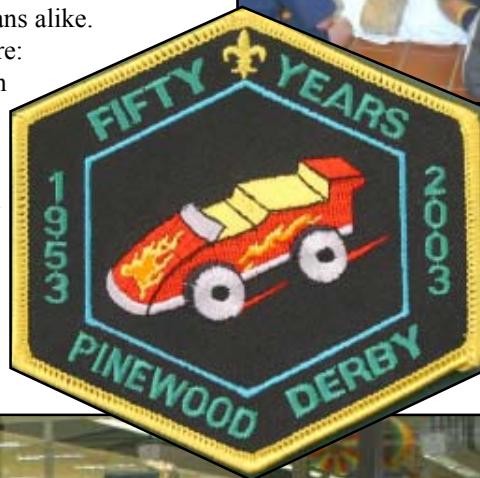

The fastest for 2003 were:

Tigers: 1st-Kevin Schmitz, 2nd-Clark Cota

Wolf: 1st-Kyle Peterson, 2nd-Chasen Tumler

Bears: 1st-Freddy Schmitz, 2nd-Jason Carrasquillo

Webelos: 1st-Tyler Robinette, 2nd-Tanner Torley, 3rd-Ty Duncan

Above: Fans and contestants alike gathered at the NEX Atrium for the 50th annual Pinewood Derby where scouts matched their race car designs in contests of speed.

Art Torley presents trophies to the overall combined competition winners. In the combined heats for all racers the winners were Kyle Petersen - 1st Place, Tyler Robinette - 2nd Place and Kevin Schmitz - 3rd Place. The overall Competition winners came out of the final heats between the winners in the individual preliminary heats.

A CHANGING OF THE GUARD

Capt. Robert A. Buehn
COMNAVBASE
(May 2000 - Mar 2003)

After three years at the helm of Naval Base Guantanamo Bay, and after guiding it through a highly visible build-up, Captain Robert Buehn turned over command of the oldest U.S. overseas base to Captain Leslie McCoy.

In January 2002, Captain Buehn assumed the additional responsibility of JTF Deputy Commander for Support. It was in that capacity that he was instrumental in reversing gears at Naval Base and spearheading the efforts to support the JTF mission through a steady increase in base infrastructure and capability. Captain McCoy assumes leadership all of those efforts and the initiation of what Capt. Buehn called the most difficult stage, the mission sustainment phase.

At the Change of Command ceremony, Capt. Buehn spoke of GTMO's small town atmosphere, its sense of community and family. His well-known sense of humor and lightheartedness brought smiles and laughter to the ceremony as he commented on GTMO's own cologne, insect repellent. Debi Buehn and their sons Tim and Will are remaining on board until the boys finish the current school year.

*Capt. Buehn, Tim, Will,
and I would like to
thank everyone in
GTMO for a great
tour, and wish the very
best to Capt. and Mrs.
McCoy. You will all be
in our hearts forever,
Thank you!*

Debi Buehn

GTMO GATHERS TO BID FAREWELL TO CAPTAIN ROBERT BUEHN AND WELCOME CAPTAIN LES MCCOY

Captain Les McCoy comes to GTMO without having been stationed here in the past, but with a GTMO link nonetheless. His father visited Guantanamo Bay during his time in the Air Force and gave Capt. McCoy some insight into GTMO via his memories.

Captain Leslie J. McCoy
COMNAVBASE (Mar 2003 -)

Capt. & Terri McCoy join GTMO during a resurgence of activity that has kept the base in the media limelight through the past year.

He has promised that there will be no discernible shift in policy and goals as he works to keep the momentum on a steady course.

Spring Arts Festival

The annual Spring Arts Festival at W.T. Sampson Elementary School drew large crowds Friday to view the artistic creations of our youngest artists.

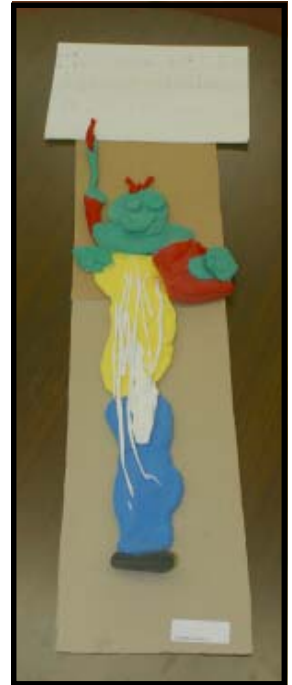

Left/above: The works of entire classes were displayed together and themes were evident in each classroom's collections.

Artistic talent abounded at the annual Spring Arts Festival where a wide spectrum of media were used to express budding talent and to display the vivid imaginations of GTMOs children. From paints to sketchwork, sculpture, music and educational displays using mixed media to demonstrate

science projects, local elementary school children gave it their all. Parents made up the bulk of the audience for the festival, it's safe to say that they would have been just as impressed with the quality of the work if they had just wandered by on a whim.

Right: Color and form dominated this depiction of the Statue of Liberty by Isabella Aguirre

Age was no deterrent to artistic expression as demonstrated by the Sure Start classes. Above: Sean Evans gives his mother some insight into his work. Right: More Sure Start parents marvel at their children's imaginative expressions.

LOST & FOUND

2 pair Lost Glasses - One pair prescription glasses. I lost them last week I believe during the rainstorm. They are a pair of rimless prescription glasses always in a brown eyeglass case. The glasses have a blue upper rim. Inside the glass case should be a green lens cloth written on it "Cohen's Fashion Optical". The other pair are sunglasses, no case. They are brown Ray Bans with a gold rim. I lost them 2-3 weeks ago I believe in the Marine Hill Area. If anyone happens to located any of these pairs please call Sarah at 8004.

PERSONALS

Cub Scout Pack 401 thanks Chief Diane Jacobs, Andrew Smith & Craig Basel for making our 2003 Pinewood Derby such a success!

New Morale Call Program Procedures

To be an authorized user of the DSN Morale Calling Program you must be an Active Duty Military or DoD Civil Service Employee. If you are an authorized user you will be given two 15-minute calls per week. This is a use or lose program. You also must have an assigned Personal Identification Number (PIN). This PIN is assigned by your command and delivered to the BCO to be entered into the Morale Minder System. Upon confirmation from the BCO you are then ready to use this new system. System times are from 0001 Monday through 2359 Sunday – weekly.

Morale Call Procedures:

Step One: Dial 2800 to connect to the base telephone switch. Upon making your connection you will hear an automated recording – wait for the appropriate prompt and then press the number one (1) on your telephone.

Step Two: Wait for the next prompt and then enter your PIN plus the pound sign (#).

Step Three: Wait and then enter the required information once prompted. You will have two options to pick from:

1. Prompt one will allow you to make a direct DSN call to the base that you're calling to.

2. Prompt two will provide you access to a DSN Operator. The operator will give you the DSN number to the base you are wanting to call and at times will even place the call for you. In either case this time frame isn't registered against your 15 minute calling time.

Notes:

1. All calls have an automatic one-minute grace period upon dialing their distant end number. If caller receives a busy signal, recording device, or if distant end hasn't picked up the phone within four to six rings – the caller can terminate the call without losing any time off their account (this must be done within that one-minute grace period).

2. If you experience problems related to this calling program, please contact your telephone representative (Every command/unit/detachment has one).
